

# WEBSITE DEVELOPMENT PROPOSAL

## Prepared for:

UDUS SOFTWARE DEVELOPMENT COMPETITION,  
Usmanu Danfodiyo University Sokoto.

## Greetings from Team AJ

I am pleased to introduce myself and my team. We are excited to get to work on a new website, and we want to make sure you're satisfied with our proposal and have a full understanding of what to expect in this lengthy process. Creating a website is exciting, and our expert team is fully capable of giving you something.

The following proposal will set a project road map from start to finish. You will have a complete understanding of the process and completion timeline. If you have any questions or concerns, please contact me personally.

Sincerely,

Auwal Jabir Bindawa

## About Us:

We are Team AJ and we create first-rate and superior websites, our mission is to make our clients happy by creating a world-class and responsive website. We will produce high-quality service that is flexible to our users.

## What We Do:

We are living in the age of connectivity, and that means more things are right at your fingertips – literally. With one press on the button, one swipe left or right, you can open up new worlds in a matter of seconds. We're talking about websites, those sites you visits using browsers on your mobile devices.

But at TEAM AJ, we don't just talk about websites. We have assembled a team of the best and brightest minds in Web development, giving our clients access to the most cutting-edge technology. You can rest assured you're in good hands, as we have years of experience in website developments.

Our goal is to create something you'd be proud of. Websites can be transcendent, and they can also be colossal failures. That's why we have developed a comprehensive approach to website development that takes guessing out of the game. We're ecstatic that you're considering doing business with us, so let's get started.

## What to Expect:

At **TEAM AJ**, we believe in a thorough approach that provides our clients with as much engagement as they request. While our entire team will be developing your website, we will assign a project lead who will be your main point of contact.

**Framework:** The app needs a sitemap and wireframes, it's better to work out issues in this stage than later down the road. Here are some highlights of this process:

- Functionality and content
- Wireframes, the structural core of your website
- User Experience and User Interface, or UX and UI – essentially, how you interact with the app, what makes it easy to use and desirable

**Development:** We will develop and finish the website completely within the period of 5 weeks. We send feedback to you for every successful step we make.

**Timeline:** TEAM AJ estimates that it will take 05 weeks to complete the new Website. Upon approving this agreement, we can begin immediately.

## PROJECT DETAILS:

**App name:** UDUS GST QUIZ WEBSITE

**App Description:** This quiz web allows users to test their selves in the general studies courses by taking quick quiz; some of the features of this website are as follows

- Students can choose in which course they like to take the quiz.
- Students can see their corrections if they answered the questions wrongly.
- Students can be able to see their high scores on any quiz taken.

### **Warranty of Service:**

Team AJ assures that the services offered will be in excellent and first-rate quality.

Thanks.
