## About Us:

We are Team Hubawe and we create first-rate and superior, our mission is to make our clients happy by creating a world-class mobile app. We will produce high-quality service that is affordable and flexible to our users.

## What We Do:

We are living in the age of connectivity, and that means more things are right at your fingertips — literally. With one press on the button, one swipe left or right, you can open up new worlds in a matter of seconds. We're talking about apps, those little icons on your mobile device.

But at TEAM HUBAWE, we don't just talk about apps; we live and breathe apps. We have assembled a team of the best and brightest minds in software development, marketing, and leadership, giving our clients access to the most cutting-edge technology. You can rest assured you're in good hands, as we have years of experience in both Android app developments.

Our goal is to create something you'd be proud of. Apps can be transcendent, and they can also be colossal failures. That's why we have developed a comprehensive approach to app development that takes guessing out of the game. We're ecstatic that you're considering doing business with us, so let's get started.

## **What to Expect:**

At **TEAM HUBAWE**, we believe in a thorough approach that provides our clients with as much engagement as they request. While our entire team will be developing your app, we will assign a project lead who will be your main point of contact.

**Framework:** The app needs a sitemap and wireframes, it's better to work out issues in this stage than later down the road. Here are some highlights of this process:

- Functionality and content
- Wireframes, the structural core of your app
- Branding and integration of existing digital platforms (i.e., web and email)
- User Experience and User Interface, or UX and UI — essentially, how you interact with the app, what makes it easy to use and desirable

**Development:** We will develop and finish the mobile app completely within the period of 8 weeks. We send feedback to you for every successful step we make.

**Timeline:** TEAM HUBAWE estimates that it will take 06 weeks to complete the new mobile app. Upon approving this agreement, we can begin immediately.
